

Mission

- WAPCo is an international company transporting natural gas in Nigeria, Benin, Togo and Ghana in a safe, responsible and reliable manner to create value for our diverse stakeholders.

Vision

- WAPCo will be a world-class pipeline company at the center of gas transmission in the West African sub-region.

Our vision and mission mean we:

- Place the highest priority on the health and safety of people and protection of our assets and the environment.
- Acknowledge our strategic location geographically to be a partner of choice
- Encourage use by multiple shippers as an Open Access system
- Will promote and diversify the use of the WAGP system as core infrastructure for natural gas transmission within the sub region
- Are trusted and respected by our host governments, customers and local communities for the manner in which we conduct our business.

Values - We are committed to

- Safe Operations
- Leadership
- Teamwork
- Accountability
- Respect for People and the environment
- Talent Development

Objectives

- Optimise cost and maximise revenue through effective management and profitable growth
- Fulfill key regional energy roles through effective advocacy and management of stakeholder expectations
- Employ integrated approach to ensure uninterrupted pipeline availability through safe and incident-free operations
- Attain efficient and effective world class organisational capability
